Re: Determination of No Historic Properties Affected Siemens Industry, Inc. Hazardous Waste Permit Decision

Dear Mr. Shaffer:

Thank you for sending to Siemens Industry, Inc. (SII) the Determination of No Historic Properties Affected contained in US EPA's report on its National Historic Preservation Act (NHPA) review of the hazardous waste permitting action pending for the SII facility in Parker, Arizona, dated May 25, 2012 (the NHPA Report). SII received the NHPA Report by mail on May 31, 2012.

Thank you also for allowing SII to participate in the Section 106 NHPA review process as a consulting party. SII has reviewed the NHPA Report and appreciates the opportunity to comment. SII concurs in EPA's finding that a permit decision on the pending hazardous waste permit application for SII's facility in Parker, Arizona will have no effect on historic properties.

Sincerely yours

Monte McCue
Director of Plant Operations
